

ReWear — Frontend Features Document

Scope: ReWear website/app mein user ko kya dikhega aur user kaise interact karega. Ye frontend/product feature plan hai; backend implementation details intentionally include nahi kiye gaye hain.

1. Overall Website Structure

- Landing Page
- Login / Register
- Home / Discover
- Search & Filters
- Item Details
- Sell / Exchange Flow
- Donate Flow
- Points Wallet
- Orders
- Meetup / Delivery Tracking
- Notifications
- Messages
- Profile & Reputation
- Help / Report Problem

2. Landing Page

- Hero: "Give Clothes a Second Life."
- Short explanation of ReWear Points
- Nearby clothes CTA
- Sell / Exchange CTA
- Donate CTA
- How ReWear Works
- Featured/nearby listings
- Impact section
- Trust & safety section
- Footer: About, Help, Terms, Privacy, Contact

3. Login & Registration

- Register with email/phone
- Login
- Forgot/reset password

- Basic profile setup
- Location permission or location selection

4. Home / Discover

- Current ReWear Points balance
- Search bar
- Nearby items
- Recommended items
- Recently added items
- Categories: T-Shirts, Shirts, Jeans, Jackets, Dresses, Shoes, etc.
- Quick actions: Sell, Donate, My Orders
- Distance on listing cards

5. Listing Cards

- Product photo
- Item name
- Brand
- Condition badge
- Points required
- Distance
- Seller rating
- Favorite button

6. Search & Filters

- Keyword
- Category
- Brand
- Size
- Condition
- Min/max points
- Distance radius
- Sort: Nearest, Newest, Lowest Points, Best Rated
- Clear filters

7. Item Details

- Image gallery + zoom
- Title, brand, category, size
- Condition and disclosed defects

- Points value
- Seller profile + rating
- Approximate distance
- Description
- Meetup/Delivery indication
- Get / Exchange button
- Save item
- Report listing

8. Sell / Exchange — Cashify-Style Flow

- Step 1: Sell/Exchange
- Step 2: Category
- Step 3: Brand
- Step 4: Size
- Step 5: Age
- Step 6: Overall condition
- Step 7: Stains/tears/fading/zip/buttons/stitching
- Step 8: Upload 3–5 photos
- Step 9: Review answers
- Step 10: Estimated points
- Step 11: Confirm & List

9. Valuation Result Screen

Your estimated value

750 ReWear Points

Based on your item details and condition.

- Edit answers
- Retake photos
- Confirm & List

10. Donate Flow

- Donate CTA
- Condition questionnaire
- Upload photos
- Estimated reward points
- Confirm donation

- Donation status
- Receiver/fulfillment information when appropriate

11. Points Wallet

- Large current balance
- Earned points
- Spent points
- Locked points
- Transaction history
- Transaction detail
- Filter earned/spent/locked

Current Balance	1,250 Points
Locked	750 Points
Available	500 Points

12. Buy / Exchange Confirmation

- Selected item summary
- Points required
- Available points
- Seller distance
- Meetup or delivery indication
- Notice that points will be temporarily held
- Confirm Exchange button

13. Nearby Meetup UI

- Nearby exchange badge
- Approximate distance
- Choose meetup location
- Choose date/time
- Meetup confirmation
- Order status timeline
- Mark item handed over
- Buyer: Item Received

14. Long-Distance Delivery UI

Example: Delivery ■120 → Buyer ■60 + Seller ■60.

- Delivery required message
- Delivery fee
- Buyer 50% share
- Seller 50% share
- Confirm delivery
- Tracking timeline
- Tracking/reference number
- Delivery status
- Buyer: Item Received

15. Orders Screen

- Active Orders
- Completed
- Cancelled
- Disputed
- Order card: item, points, other user, distance, meetup/delivery status

16. Order Timeline

Exchange Requested → Points Locked → Meetup/Delivery → Item Received → Points Released → Completed.

17. Notifications

- Listing approved/published
- New exchange request
- Exchange accepted
- Points locked/released
- Meetup reminder
- Delivery updates
- Item received
- Rating request
- Dispute updates

18. Profile

- Profile photo + name
- Rating
- Successful exchanges
- Donations completed
- Items listed
- Member since
- Basic location area
- Edit profile

19. Reputation

- Average rating
- Successful exchanges
- Donation count
- Completed transactions
- Optional badges

20. Favorites

- Heart/save button
- Saved items page
- Remove saved item
- Optional status-change notification

21. Dispute / Report UI

- Report listing
- Report user
- Report received item
- Select problem type
- Description
- Upload evidence/photos
- Submit dispute
- Dispute status

22. Chat — Phase 2

- Buyer-seller conversation
- Order-linked chat
- Text/photos
- Unread count
- Report/block user

23. Important UX States

- Loading skeleton
- No nearby clothes
- No search results
- Insufficient points
- Item already reserved
- Listing expired
- Upload failed
- Network error
- Location permission denied
- Delivery unavailable
- Delivery fee pending
- Dispute in progress
- Success confirmation

24. Navigation

Desktop: Logo | Discover | Sell | Donate | Orders | Wallet | Messages | Notifications | Profile

Mobile: Home | Discover | Sell | Orders | Wallet

25. Visual Design Direction

- Clean, modern, eco-friendly marketplace

- Bright Leaf #CDFF9B + Emerald Green #203D43
- Large clothing photography
- Rounded cards and clear condition badges
- Points shown prominently
- Simple icons and generous spacing
- Mobile-first responsive design

26. MVP — Build First

- Landing
- Login/Register
- Home/Discover
- Search + filters
- Listing details
- Sell questionnaire
- Valuation result
- Create listing
- Wallet
- Exchange confirmation
- Nearby meetup
- Orders
- Profile

27. Phase 2

- Long-distance delivery
- 50/50 delivery fee UI
- Tracking
- Notifications
- Disputes
- Ratings/reviews
- Favorites
- Seller reputation

28. Phase 3

- Real-time chat
- Offers
- Advanced recommendations
- Impact dashboard

- Admin/moderation interface

29. Complete Frontend Journey

Home → Search → Open Jacket → Check 750 Points → Exchange → Points Locked → Nearby Meetup → Confirm Meetup → Item Received → Points Released → Rate Seller → Completed.

30. What Makes It Stand Out

- Cashify-style guided clothing valuation instead of a boring long form
- Nearby-first discovery with distance visible
- Clear points economy throughout the UI
- Visual order timeline
- Transparent 50/50 delivery split
- Strong loading/empty/error states
- Trust indicators and seller reputation
- Excellent mobile responsiveness
- Polished marketplace cards
